

InflamMove

Support for Natural Inflammatory Response

DESCRIPTION

InflamMove is a blend of standardized botanical extracts and enzymes to support normal, healthy inflammatory response.

FUNCTIONS

InflamMove is a blend of standardized botanical extracts and enzymes which work together to help support the body's natural inflammatory responses. The combined action of these ingredients helps support and protect the body's connective tissues, such as tendons, ligaments, and cartilage. Featured in the formulation of this product are:

Boswellia serrata extract: Purified oleoresin from the *Boswellia serrata* tree, native to India, contains boswellic acids, which have been shown to be responsible for the tissue-protective actions of this extract. Boswellic acids appear to act by inhibiting leukotrienes, a class of mediators of the body's inflammatory response. Boswellic acids are reported to increase blood supply to joint tissues, thereby preventing decline of cartilage synthesis. The extract from *Boswellia serrata* resin is standardized to a minimum of 40% boswellic acids.

Turmeric root extract: Curcumin is the yellow pigment contained in turmeric, a popular culinary spice from India. In addition to imparting a characteristic color and flavor to foods, curcumin has potent antioxidant properties and beneficial action on tissue health. Like boswellic acids, curcumin inhibits mediators of the inflammatory response, including thromboxanes and leukotrienes. As an antioxidant, curcumin protects against oxidative damage. Additionally, there is evidence that curcumin may strengthen the body's natural anti-inflammatory responses.

Devil's Claw extract: The tubers of this South African plant are rich in iridoid glycosides, in particular harpagosides. The harpagosides benefit connective tissue metabolism by supporting natural immune response to inflammation.

The inclusion of White Willow bark extract, Ginger rhizome extract, and a proprietary enzyme/herbal blend even further enhance the effectiveness of this product in supporting the body's natural inflammatory responses.

INDICATIONS

InflamMove vegetarian capsules provide a convenient combination of standardized extracts for individuals wishing to support inflammatory response with complementary botanical extracts.

FORMULA (WW #10318)

3 Vegetarian Capsules Contain:

Tumeric (<i>Curcuma longa</i>) rhizome extract.....	200 mg
Ginger (<i>Zingiber officinale</i>) rhizome extract.....	150 mg
White Willow (<i>Salix alba</i>) bark extract.....	200 mg
Boswellia serrata gum resin extract.....	200 mg
Devil's claw root extract.....	300 mg
<i>(Harpagophytum procumbens)</i>	
Proprietary Enzyme/Herbal Blend.....	150 mg
Protease (50,000 HUT), Papain (18,000 PU), Bromelain (2,400 GDU), trans-Resveratrol <i>(Polygonum cuspidatum)</i> root extract, and LeucoSelect® Phytosome™ Grape seed <i>(Vitis vinifera)</i> extract	

Other ingredients: Cellulose and water (vegetarian capsule), cellulose, magnesium stearate, and silica.

Natural color variations may occur in this product.

This product is vegetarian and contains NO sugar, salt, dairy, yeast, wheat, gluten, corn, soy, preservatives, artificial colors or flavors.

SUGGESTED USE

Adults take 3 vegetarian capsules up to 2 times daily prior to mealtime, or as directed by a healthcare professional.

SIDE EFFECTS

Warning: Do not take if pregnant or lactating. Consult your physician before combining medications.

STORAGE

Store in a cool, dry place, away from direct sunlight. Keep out of reach of children.

Manufactured For:

Masters Specialty Pharmacy
1100 West Patrick St., Ste. A
Frederick, MD 21702
